Championing Skills Development for Land Based Industries

The National Land Based College (UK) is an employer led organisation, operating virtually through a hub and spoke model. Our primary goal is to engage land based industries far more in education, training, skills

NLBC Colleges in the UK

103

courses available

782

careers available through an NLBC education

924

Crop growing skills

- Not many students = few colleges delivering courses
- How does industry get the skills it needs?
- ARTIS Training managed by NIAB developing a collaboration with NLBC to widen participation on their high quality training programmes
- Working with NLBC to create courses and content that could be used by colleges around the UK to teach crop production
- Increased opportunities to study crop production across the UK as well as raising the bar in terms of delivery standards
- Seeking support to carry out the work to develop the tools that can be used to teach crop production to a high standard right across the country
